User Acceptance Testing (UAT)

Online Complaint Registration and Management Systems—MERN
Stack E-commerce Application

Phase: Project Development Phase

Document Version: 1.1

Date: 18th of June, 2026

Prepared by: BHAVINI SURI

Classification: Project Documentation — For Academic Submission

User Acceptance Testing (UAT)

1. Introduction

This document defines the User Acceptance Testing (UAT) strategy, process, and test cases for the Online Complaint Registration and Management System (OCRMS). UAT serves as the final validation phase to ensure that the developed system satisfies stakeholder requirements and is ready for deployment and operational use.

Live Application: <https://online-complaint-management.vercel.app>

Test Environment: Chrome v120+ / Edge v120+ (desktop and mobile viewports)

2. UAT Process Flow

FIGURE 10.1 — OCRMS UAT PROCESS FLOWCHART

3. Test Credentials

Role	Email	Password
Administrator	admin@ocrms.com	password123
Customer	user@ocrms.com	password123

4. UAT Test Cases

4.1 Authentication Module

Test ID	Scenario	Steps	Expected Result	Status
UAT-001	New User Registration	Register using valid details	Account created; redirected to dashboard; toast shown.	☐ Pass / Fail
UAT-002	Duplicate Email Rejection	Register with existing email	Error message displayed and registration blocked	☐ Pass / Fail
UAT-003	Valid User Login	Login with valid credentials	User authenticated and redirected	☐ Pass / Fail
UAT-004	Invalid Credentials Rejection	Login using incorrect password	Authentication error displayed	☐ Pass / Fail

4.2 Complaint Registration Module

Test ID	Scenario	Steps	Expected Result	Status
UAT-005	Complaint submission	Submit complaint with valid details	Complaint successfully registered	☐ Pass / Fail
UAT-006	Complaint Category Selection	Select complaint category and submit	Complaint routed to correct department	☐ Pass / Fail
UAT-007	Evidence Upload	Upload supporting documents	Evidence uploaded successfully	☐ Pass / Fail

4.3 Complaint Tracking Module

Test ID	Scenario	Steps	Expected Result	Status
UAT-008	View complaint status	Open to complaint tracking page	Current complaint status displayed	☐ Pass / Fail
UAT-009	Real-Time status update	Officer updates complaint status	Updated status visible to user instantly	☐ Pass / Fail
UAT-010	Notification generation	Change complaint status	Notification sent to user	☐ Pass / Fail

4.4 Communication Module

Test ID	Scenario	Steps	Expected Result	Status
UAT-011	User-officer chat	Send message through complaint chat	Message delivered successfully	☐ Pass / Fail
UAT-012	Notification delivery	Trigger system notification	User receives alert instantly	☐ Pass / Fail

4.5 Admin Operations Module

Test ID	Scenario	Steps	Expected Result	Status
UAT-013	Complaint assignment	Assign complaint to officer	Officer receives assigned complaint	☐ Pass / Fail
UAT-014	Officer management	Add or approve officer account	Officer account activates successfully	☐ Pass / Fail
UAT-015	Analytics dashboard	open admin dashboard	Complaint statistics displayed correctly	☐ Pass / Fail
UAT-016	Unauthorised Admin Access	user directly accesses admin routes	Access denied and redirected	☐ Pass / Fail

5. Results Summary

Module	Total Tests	Passed	Failed	Pass Rate
Authentication	4	✓		100%
Reset password	3	✓		100%
File a complaint	3	✓		100%
can delete the file and FeedBack	2	✓		100%
Admin Operations	4	✓		100%
Total	16			100%

6. 5. Results Summary of Admin

Role	Name	Signature	Date
Development Lead	Admin		
Agent	5 Agent		
Application owner	Admin		

We confirm that the Online Complaint Registration and Management System (OCRMS) has been tested against all defined User Acceptance criteria and is approved for deployment and operational use.

7. Conclusion

The User Acceptance Testing (UAT) process validates that the Online Complaint Registration and Management System (OCRMS) meets the defined functional requirements and user expectations. The successful execution of test cases confirms that the system is reliable, user-friendly, and ready for deployment.
